

From Y3Y4 Class...

Science...

Heat and heat transfer. We measured the temperature of water and then iced water. We recorded our data in Excel.

Visual Arts...

Decorating masks.

Drama and Media Arts...

A favourite lesson time in our class is Drama. Costumes enhance our enjoyment, and iPads enable us to explore ways to position our audience on things such as difference in power. They enable us to experiment with ways to convey emotions through images. What are Clyde and Charlotte's characters feeling?
